Notes to Schedule of Expenditures of Federal Awards Year Ended June 30, 2014

Note 1. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal grant activity of San Diego State University Research Foundation (the Foundation) under programs of the federal government for the year ended June 30, 2014. The information in the Schedule is presented in accordance with the requirements of Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Because the Schedule presents only a selected portion of the operations of the Foundation, it is not intended to, and does not, present the financial position, changes in net position, or cash flows of the Foundation.

Note 2. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles obtained in OMB Circular A-21, Cost Principles for Educational Institutions, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Pass-through entity identifying numbers are presented where available.

Note 3. Subrecipients

Of the federal expenditures presented in the Schedule, the Foundation provided federal awards to subrecipients as follows:

		Amount

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

The Board of Directors
San Diego State University Research Foundation

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of San Diego State University Research Foundation (the Foundation), a component unit of San Diego State University, which comprise the statements of net position as of June 30, 2014 and 2013, and the related statements of revenues, expenses and changes in net position, and cash flows for the years ended June 30, 2014 and 2013, and the related notes to the financial statements, and have issued our reports thereon dated September 19, 2014 and September 20, 2013, respectively.

Internal Control Over Financial Reporting

In planning and performing our audits of the financial statements, we considered the Foundation's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control. Accordingly, we do not express an opinion on the effectiveness of the Foundation's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Foundation's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Foundation's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Foundation's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on Compliance for Each Major Federal Program; Report on Internal Control Over Compliance; and Report on the Schedule of Expenditures of Federal Awards Required by OMB Circular A-133

The Board of Directors
San Diego State University Research Foundation

Report on Compliance for Each Major Federal Program

We have audited the compliance of San Diego State University Research Foundation (the Foundation), a component unit of San Diego State University, with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the Foundation's major federal programs for the year ended June 30, 2014. The Foundation's major federal programs are identified in the Summary of Auditor's Results section of the accompanying Schedule of Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to each of its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Foundation's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Foundation's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Foundation's compliance.

Opinion on Each Major Federal Program

In our opinion, the Foundation complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance, which is required to be reported in accordance with OMB Circular A-133 and which is described in the accompanying Schedule of Findings and Questioned Costs as Item 2014-01. Our opinion on each major federal program is not modified with respect to this matter.

The Foundation's response to the noncompliance finding identified in our audit is described in the accompanying Schedule of Findings and Questioned Costs and corrective action plan. The Foundation's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Management of the Foundation is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Foundation's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Foundation's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A-133

We have audited the financial statements of the Foundation as of and for the years ended June 30, 2014 and 2013, and have issued our reports thereon dated September 19, 2014 and September 20, 2013, respectively, which contained unmodified opinions on those financial statements. Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the financial statements. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the financial statements as a whole.

A. Significant Deficiencies or Material Weaknesses

None reported.

B. Compliance Findings

None reported.

III. Federal Award Findings and Questioned Costs

A. Significant Deficiencies or Material Weaknesses

None reported.

B. Compliance Finding

Item 2014-01: Timely Submission of Grant Reports

Federal Agency: National Science Foundation

CFDA #: 47.050 Program: Geosciences

Criteria: According to OMB Circular A-110, Section .51 (b) (monitoring and reporting program performance), the Federal awarding agency shall prescribe the frequency with which the performance reports shall be submitted.

Condition: San Diego State University Research Foundation (the Foundation) failed to comply with the performance reporting criteria of the National Science Foundation.

Context: During testing over reporting compliance, the audit team selected and tested 35 required reports to test the Foundation's compliance with the reporting requirements. The engagement team reviewed the submitted reports for 35 reports and noted that one report was submitted late.

Effect: Failure to submit required reports in a timely manner could potentially cause delay or elimination of federal funding.

Cause: The responsible party did not prepare and submit prior to deadline.

Recommendation: We recommend the Foundation increase its efforts to educate its principal investigators (PI) and project directors about compliance with reporting deadlines.

Schedule of Findings and Questioned Costs (Continued) Year Ended June 30, 2014

Views of responsible officials and planned corrective actions: The Foundation has procedures in place to track the timeliness of technical report submission and to educate faculty of the importance of compliance with reporting requirements. Agency reporting requirements are input into the Foundation's accounting system at the time an award is made, including type of report and due date. This data is updated throughout the life of the award. Technical reporting due dates are made available to Pls in real time via a web-based interface with the accounting system and e-mail reminders are sent out at the end of each month to remind Pls to review the data. In addition, an automated email is sent to the Pl and those designated as secondary contacts 60 to 90 days before the expiration of the fund notifying them of the termination date and any required actions needed to facilitate orderly closeout, including a reminder to submit any required technical report. Agency reminders of upcoming report deadlines are monitored and forwarded to all appropriate parties. In those cases where the Pl fails to submit required reports despite reminders, the issue is elevated to the department chair, college dean and/or vice president for research as needed. Funds are not closed until all reporting requirements have been met.

We will continue to monitor and implement these policies and remind faculty of the importance of fulfilling our reporting requirements in a timely manner.

In regard to the late report noted, the Foundation notified the PI of the required report and repeatedly followed up while emphasizing the importance of compliance with reporting deadlines. The PI contacted his program officer to explain the reasons for missing the deadline. A new timeline was established and the report was submitted and accepted within that timeframe.

Summary Schedule of Prior Audit Findings Year Ended June 30, 2014

There were no audit findings reported for the year ended June 30, 2013.
